Tokyo Boeki Holdings Corporation

**TB Global Technologies Ltd.**

## **We will participate in Food Factory 2022**

TB Global Technologies Ltd. (Kyobashi Edogrand 28F, Laurent Poidevin, President, hereinafter referred to as TBG) will exhibit at Food Factory 2022 to be held at Tokyo Big Sight from September 28 (Wed) to September 30 (Fri), 2022.

This is the first time for TBG to participate in this exhibition, which is a specialized trade show for equipment and devices related to facility improvement and engineering in food factories. TBG's swivel joints are famous in oil stock pile equipment, however, the products exhibited here are not for use in oil tanks, but for sanitary applications. These swivel joints are used in manufacturing sites where hygiene standards are extremely strict, such as in the production of pharmaceuticals, cosmetics, and food products that come into contact with the skin or go into the mouth.

Characteristics are;

Disassembly, cleaning, and assembly are easy

Design prevents liquid from puddling

Mechanism allows rotation without the use of grease (oil) to prevent contamination of the fluid and other hygienic features.

Swivel joints of various shapes and sizes are available for flexible piping.

Please stop by our booth (S-24, East Hall 4-6, Tokyo Big Sight) to see our sanitary swivel joints with fittings that meet the ISO standards required for sanitary piping and packing that complies with the Food Sanitation Law. We would be happy to be of service to companies considering the construction of factories in the future. We look forward to seeing you at our booth.

## About Tokyo Boeki Group

Tokyo Boeki Holdings Corporation(27F, Kyobashi Edoguran, 2-2-1 Kyobashi, Chuo-ku, Tokyo; President: Hideshige Tsubouchi), a holding company, and 14 operating companies in Japan and overseas that are rich in individuality, making a total of 15 companies. This year marks the 75th anniversary of the company's founding in 1947.

In 2006, we introduced a unique management system, "Tokyo Boeki Group Federal Management," based on our group's common spirit, the Three Founding Principles + 1. We aim to become a group that continues to provide new value to the world.

The Tokyo Boeki Group has established the VISION of "Imagination and Creation" with the SDGs as its main objective. Under this vision, each company in the group is contributing to the SDGs by developing businesses in a variety of fields. In addition to existing businesses, we are contributing to the creation of a social ecosystem through initiatives and open innovation in collaboration with venture companies.
